

CONSERVATIVE PARTY ELECTION SPEECH

Hello, my name is Bridey and I represent the Conservative Party.

At the moment there are many problems in our society that we need to fix. For example, the present government has caused us big money problems and many more people do not have a job or enough money to buy the things they need.

If you vote for my party to become your next government, then as your new Prime Minister I believe we have the best ideas and plans to put all these things right. I believe we can help everyone work together to make Britain a better, fairer and safer place to live.

VOTE CONSERVATIVE and make our economy strong again. We will act straight away to sort out Britain's money problems, not wait until they get worse. We will do much more to help businesses grow and do well. We will stop government money being wasted, this will save a lot of money but will not affect the important services people need. And we will make banks work in a much safer way to stop money problems like this ever happening again.

VOTE CONSERVATIVE because we believe too many people are out of work and do not have enough money to buy essential things. We can change this and we can get people back into work. We will help businesses create new jobs. We will help everyone who does not have a job by giving them advice, training and the chance to try out new jobs and help make sure that everyone who can work does work. We will help young people get better training skills. And we will help improve colleges and universities, creating more places in them for young people.

VOTE CONSERVATIVE because we want people to have more choices and control over their lives. We will give more money and support to groups like charities and voluntary groups. This will help them do more good work to make people's lives better. We will help people in local areas come together to change things or have more of a say. For example, people could get together to

- start new schools
- stop services like local post offices and local pubs being shut down
- have meetings with their local police

We will set up a project for young people which will help them take part more in the local area and do good things.

VOTE CONSERVATIVE and we will spend more money on the National Health Service every year to make it the best it can be. We will give people more choice about their healthcare and ensure all hospitals are kept much cleaner. People will be able to see a doctor between 8 o'clock in the morning and 8 o'clock in the evening, every single day of the week. We will make sure many more people can have an NHS dentist. We will make sure people can get important medicines they need, for example, cancer drugs. And we will reduce the use of animals in scientific research.

VOTE CONSERVATIVE and we will make schools much better so that everyone can have the best start in life. We will make sure teachers are the best they can be, with the best training and skills. We will make it much easier for schools to deal with pupils who behave badly and we will bring in new ways of teaching and learning to make every child's education the best it can be. We will give parents better information about schools to help them make the right choices. There will be more academy schools where any child can go to. They will be smaller with a high standard of education.

VOTE CONSERVATIVE because we believe crime has got much worse. We need to fight crime and bad behaviour and make Britain a safer place to live. We will do more to stop violence to do with drugs or alcohol. For example, shops or bars that keep selling alcohol to children will be shut down. We will deal better with knife crime and believe people found guilty should be sent to prison. We will make sure we have more police officers each year and that they have much more time to go out on our streets and deal with crime. We will also make sure people get proper help when they leave prison to stop them doing drugs or crime again.

VOTE CONSERVATIVE because we believe the world uses too much petrol, gas and other things that pollute. We want Britain to lead the world in helping to save the environment. We will make businesses work in a much better way and we will help new ones start that have good ideas or ways of helping our environment. We will help everyone do their bit. For example, every home will have money to spend on making it use less gas and electricity which will then make bills much cheaper. Rewards will also be given to people who recycle more than others.

So please, if you want to make a better and brighter future for us all, don't waste your vote, make it count – **VOTE CONSERVATIVE** -

VOTE BRIDEY

Thank you
