

Vote green for a better Britain

Schools: if you vote for us then every child will get a free school meal. We will get rid of Sats and have more trips out. And we will make safer bike routes to school. Nursery and child care will be improved and children won't have to start sit down lessons until they are 6 (like most other countries).

Health/hospitals: adults will not have to pay to go to the hospital and adults will not have to get a prescription and to go to hospital.

Environment: Buses and trains will be less expensive and planes which pollute our world will cost more.

Police: crack down on gun crime by a licensing system. And have more police in the community. And we will put more wardens in the park to look after property and play equipment. And finally we will have more places for drug addicts to get help.
