

# Liberal democrats

## Education

Classes are too big for teachers to control. We will cut class sizes.

The Liberal Democrat party want children to get a good education / job.

Also children leaving education are in thousands of debt, paying for university, so Liberal Democrats want children to be free of cost for university.

## Police

Crime is one of the biggest issues facing the country; also Liberal Democrats are putting 3,000 more police officers on the streets by scrapping ID cards.

## Environment

The Liberal Democrats have received three green lights by offering the strongest set of policies on climate change, green taxation and green living. Damage to our environment damages personal health impoverishes economies and weakens communities.

# Health

We've all experienced moments in hospitals that change the course of our lives. Liberal Democrats know how important the NHS, National Health Service, is and that's why we will make sure that the NHS provides high quality care and the best possible service long into the future.

**Vote for us!!!!!! Liberal Democrats**
