

School Council Minutes

November 17, 2011

School Council Project

The Council had asked their classes which project they would like to try to complete during the school year. The 2 favourites were:

1. Raising money for permanent goal posts. Alongside this the council felt there would need to be plans and rules as to how they were used.
2. Developing a mini beast garden – Could be linked with Goldentime gardening club

It was decided that both projects could take place in the year as the minibeast garden would not cost a lot of money but would need time and planning. The goal post will cost money but will be put in by other people.

ACTIONS FOR SCHOOL COUNCIL

1. Find out about plans for a mini beast garden. Which plants etc.
2. Decide on ways to raise money for goal posts.

Hollinsend Park

The council completed a questionnaire for Friends Of Hollinsend Park regarding the proposed new sports area on the old tennis courts.

The school sculpture designed by the current y4 children has now completed and in place in the park.

The school council said how sad they were that people were vandalising the park and suggested a Park Warden would be a good idea.

Banner- Why Gleadless is Great

The council came up with all sorts of words to describe why Gleadless is Great. Mrs Fowles has put this sample into word and carried out a “wordle”. The more times a word comes up the larger the word. There is a sample below. If each class puts a word document together with a list of words as to why Gleadless is great (it doesn’t matter if words are repeated- its better in fact). Email Mrs Fowles the list. She will will wordle it! You can try <http://www.wordle.net>

Help with Homework

Harrison has found some Apps for moths Games. A free one is Children’s Math Learning. The school website has some new learning games, also don’t forget Purple Mash.

Next meeting Wed 11th Jan 2:15
